Risultati preliminari 1H24

Nel comunicato stampa del 15 luglio 2024, Casta Diva Group SpA, multinazionale quotata su Euronext Growth Milan, attiva nel settore della comunicazione per la produzione di *branded content*, video virali, contenuti digitali, film e *live music entertainment*, ha comunicato il dato preliminare consolidato, non sottoposto a revisione contabile, relativo al valore della produzione al 30 giugno 2024, oltre ad alcuni KPI di business.

Nello specifico, il valore della produzione si attesta pari a € 57,20 mln, segnando un incremento del +8,5% rispetto a € 52,70 mln registrati nell'1H23A.

Il Gruppo ha inoltre comunicato che il valore del *backlog* consolidato, che include le commesse da evadere entro l'anno, è, al 30 giugno 2024, pari a circa € 34,20 mln. La somma tra il valore della produzione e il *backlog* al 30 giugno 2024 ammonta pertanto a € 91,40 mln, rappresentando attualmente circa il 75,7% del valore della produzione prospettato nel Piano Industriale 2023-2026 pubblicato dal Gruppo per il 2024 (€ 120,70 mln).

In merito ai risultati, il Presidente e Amministratore Delegato di Casta Diva Group, Andrea De Micheli, ha dichiarato: *“È molto confortante constatare che nei primi sei mesi dell'esercizio 2024, CDG ha già ottenuto commesse per tre quarti del budget annuale previsto. Casta Diva ha circa 150 clienti attivi, tutti top tier. La strategia di CDG prevede il consolidamento della nostra leadership nei mercati in cui operiamo, sia in quello degli eventi, sia in quello dei contenuti video, attraverso un'oculata serie di acquisizioni e la creazione di verticali specializzate. Nei prossimi anni vogliamo aumentare la nostra quota di mercato dal 10% attuale al 25-30% per diventare un campione internazionale”*

L'ottenimento di tali risultati dimostra che il Gruppo è in una fase avanzata e soddisfacente nel raggiungimento degli obiettivi prefissati dal proprio piano di sviluppo. Questo rafforza la nostra visione positiva sul titolo. In attesa di incontrare il management per una valutazione dettagliata dei risultati semestrali, confermiamo la nostra raccomandazione: **Target Price € 3,20, Rating BUY e Risk Medium.**

Valuation methodologies (long term horizon: 12 months)

The methods that INTEGRÆ SIM SpA prefers to use for value the company under analysis are those which are generally used, such as the market multiples method which compares average multiples (P/E, EV/EBITDA, and other) of similar shares and/or sectors, and the traditional financial methods (RIM, DCF, DDM, EVA etc). For financial securities (banks and insurance companies) Integræ SIM SpA tends to use methods based on comparison of the ROE and the cost of capital (embedded value for insurance companies).
